CERRO CASCARON DRILL PROGRAM UPDATE; EVRIM TEAM ON THE GROUND

Vancouver, British Columbia / September 11, 2018 – Harvest Gold Corporation (TSX.V: HVG) (the “Company”) is pleased to announce that its Joint Venture partner and Operator Evrim Resources’ (TSX.V:EVM) advance team arrived yesterday in Morelos, Mexico to begin preparations for the Cerro Cascaron drill program.

The Evrim team is now setting up camp and will be preparing the Cerro Cascaron drill sites in advance of the initial drill program, which is designed for up to 3000 meters across two main areas, the Cascaron gold field and the Cascarita silver targets. The team reports that the wet season was fairly heavy and the water in the river and surrounding area still needs to recede to facilitate moving the drills easily.

Evrим will finalize the drill contractor shortly and all is on track to commence drilling at, or about, the end of September 2018.

Harvest Gold President and CEO Rick Mark states: “It is tremendously exciting to know that we are finally underway at Cerro Cascaron. This very tough market for junior gold and silver explorers has made us wait longer than we had hoped, but the Evrim advance Geological team is now on the ground and drill sites are being prepared. I remind you this large and prospective property has never been drilled. Thanks to all of our shareholders for your patience.”

About Harvest Gold Corporation

Harvest Gold is a mineral exploration company presently advancing its Cerro Cascaron high grade gold/silver project in Chihuahua State, Mexico, where an initial 3,000 m drill program is planned for 2018. Harvest Gold’s Board of Directors and management team are experienced in successful exploration and have collective geological and financing experience exceeding 200 years.

ON BEHALF OF THE BOARD OF DIRECTORS

Rick Mark,
President and CEO
