SONORO PROPOSES \$750,000 PRIVATE PLACEMENT FINANCING

VANCOUVER, Canada, June 17, 2019, Sonoro Metals Corp., (TSXV: SMO | OTCQB: SMOFF | FRA: 23SP), ("Sonoro" and the "Company"), announces that the Company proposes to undertake a non-brokered private placement of up to 4,167,000 units (the "Units") at a price of \$0.18 per Unit, for gross proceeds of up to \$750,060 (the "Offering"). Each Unit will consist of one common share and one-half of a common share purchase warrant (each whole warrant, a "Warrant"). Each Warrant will entitle the holder thereof to purchase one common share of Sonoro at an exercise price of \$0.27 during the one year following the closing of the Offering. The Company may pay a finder's fee or commission on a portion of the Offering.

Directors, officers and insiders may participate in the Offering. Any such participation will be considered to be a "related-party transaction", within the meaning of TSX Venture Exchange Policy 5.9 and Multilateral Instrument 61-101 ("MI 61-101"). The Company intends to rely on the exemptions of the formal valuation and minority shareholder approval requirements of MI 61-101 contained in Sections 5.5(a) and 5.7(1) of MI 61-101 in respect of such participation by related parties.

The net proceeds from the Offering will primarily be used by Sonoro to complete the current Phase Two drilling program and fund the launch of a Phase Three drilling program at the Cerro Caliche project in Sonora, Mexico. Funding will also be allocated for the commissioning of preliminary studies required to produce a NI 43-101 compliant study to assess the viability of the development of a heap leach operation at Cerro Caliche.

All securities issued in connection with the Offering will be subject to a hold period expiring four months and one day following the closing of the Offering. The Offering is subject to final acceptance by the TSX Venture Exchange.

Except to the extent required by applicable securities laws and the policies of the TSX Venture Exchange, the Company undertakes no obligation to update these forward-looking statements if management's beliefs, estimates or opinions, or other factors, should change. Factors that could cause future results to differ materially from those anticipated in these forward-looking statements include the inability of the Company to secure sufficient subscriptions to complete the Offering, the risk of accidents and other risks associated with mineral exploration operations, the risk that the Company will encounter unanticipated geological factors, or the possibility that the Company may not be able to secure permitting and other governmental clearances, necessary to carry out the Company's exploration plans, and the risk of political uncertainties and regulatory or legal changes in the jurisdictions where the Company carries on its business that might interfere with the Company's business and prospects. The reader is urged to refer to the Company's reports, publicly available through the Canadian Securities Administrators' System for Electronic Document Analysis and Retrieval (SEDAR) at www.sedar.com for a more complete discussion of such risk factors and their potential effects
