

# Colibri Announces \$2.2 Million Non-Brokered Financing

Dieppe, New Brunswick--(Newsfile Corp. - March 29, 2021) - Colibri Resource Corporation (TSXV: CBI) ("Colibri" or the "Company") is pleased to announce it will be conducting a non-brokered private placement of up to \$2,200,000 CAD. The private placement will consist of the issuance of up to 22,000,000 units with each unit consisting of one common share valued at \$0.10 and a warrant to purchase an additional common share at an exercise price of \$0.15 per share for a period of two years from the closing of the private placement.

The proceeds from the private placement will be used for advanced exploration on the flagship Evelyn Gold Project, early stage exploration at the newly acquired Diamante Gold and Silver Project and for general working capital purposes.

"The results generated from the work completed on the Evelyn Gold Project over the past year has built a strong case for a targeted drilling program. The consistency and wide spacing of potentially economic gold grades in surface and trench samples has been very encouraging. As preparation for drilling at Evelyn proceeds, we will initiate and advance surface exploration at the newly acquired and highly prospective Diamante property. Our other three exploration projects in Sonora are being funded by our partners and continue to produce excellent results," says Ron Goguen, CEO & President.

The private placement is subject to the approval of the TSX Venture Exchange. Finder's fees will be paid on the private placement in accordance with the policies of the TSX Venture Exchange.
