

Fortuna publishes its 2023 Sustainability Report

Vancouver, May 30, 2024 - Fortuna Silver Mines Inc. (NYSE: FSM; TSX: FVI) is pleased to announce the publication of its sixth annual sustainability report which details the Company's performance on key environmental, social, and governance (ESG) indicators during 2023. The report also includes dedicated sections on Fortuna's sustainability management and initiatives at each of the Company's operating mines as well as the contributions made within the countries that host our operations in the Latin America and West Africa regions. Also included is an ESG data section containing disclosure under sustainability accounting Standards Board (SASB) Metals and Mining Standard, the Task Force on Climate-Related Financial Disclosures Recommendations (TCFD), and the Global Reporting Initiative (GRI) standard.

Jorge A. Ganoza, President and CEO of Fortuna, commented, "In 2023, we have made significant progress with respect to tailings management, climate change, and overall safety performance. I want to take this opportunity to commend the active leadership and dedication of our teams in Latin America and West Africa, as Fortuna continues to work towards a Zero Harm workplace where critical risks are better managed, and events leading to potential injuries are mitigated." Mr. Ganoza added, "At Fortuna, we continually strive to enhance and strengthen a safety culture that permeates throughout the entire organization."

"To maintain operational excellence and achieve a Zero Harm workplace requires an engaged workforce undertaking the necessary precautions to foster a safety-first organization", said Julien Baudrand, Senior Vice President of Sustainability. "This report provides an in-depth understanding of how Fortuna proactively and collectively manages its sustainability-related risks, discusses the Company's ESG performance, and communicates our initiatives to continue creating long-term value for the organization and its stakeholders."

Forward-Looking Statements

This news release contains forward-looking statements which constitute “forward-looking information” within the meaning of applicable Canadian securities legislation and “forward-looking statements” within the meaning of the “safe harbor” provisions of the Private Securities Litigation Reform Act of 1995 (collectively, “forward-looking statements”). All statements included herein, other than statements of historical fact, are forward-looking statements, including, without limitation, statements pertaining to the Company’s sustainability plans, targets, strategies, and goals, such as working towards a Zero Harm workplace, implementing the Global Industry Standard for Tailings Management, and the Company’s climate change GHG emissions reduction target. Often, but not always, these forward-looking statements can be identified by the use of words such as “believe”, “expect”, “anticipate”, “contemplate”, “target”, “plan”, “goal”, “budget”, “aim”, “intent”, “estimate”, “may”, “should”, “could” and similar expressions, including negative variations.

Forward-looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance, or achievements of the Company to be materially different from any results, performance or achievements expressed or implied by the forward-looking statements. Such risks, uncertainties, and factors include, among others, risks associated with climate change; risks associated with mining regime changes in the Company’s operating jurisdictions, including those related to permitting and approvals, environmental and tailings management, labour, trade relations, and transportation; as well as those factors discussed under “Description of the Business - Risk Factors” in the Company’s Annual Information Form, a copy of which can be found on the Company’s profile on the SEDAR+ website at www.sedarplus.ca. Although the Company has attempted to identify important factors that could cause actual actions, events, or results to differ materially from those described in forward-looking statements, there may be other factors that cause actions, events, or results to differ from those anticipated, estimated or intended. Forward-looking statements contained herein are based on the assumptions, beliefs, expectations, and opinions of management, including, but not limited to, continued availability of water and power resources at the Company’s operations; financial and physical impacts of climate change and climate change initiatives on markets and the Company’s operations; the availability and effectiveness of technologies needed to achieve the Company’s sustainability goals and strategies; the accuracy of the Company’s current mineral resource and reserve estimates; that the Company’s activities will be in accordance with the Company’s public statements and stated goals; and that there will be no material adverse change affecting the Company or its properties. Forward-looking statements are made as of the date hereof and the Company disclaims any obligation to update any forward-looking statements, whether as a result of new information, future events or results or otherwise, except as required by law. There can be no assurance that forward-looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, investors should not place undue reliance on forward-looking statements.
