

IMPACT Silver Announces Second Tranche Closing of Non-Brokered Private Placement Financing

Vancouver, British Columbia--(Newsfile Corp. - June 12, 2024) - IMPACT Silver Corp. (TSXV: IPT) (OTCQB: ISVLF) (FSE: IKL) ("**IMPACT**" or the "**Company**") is pleased to announce that it has closed the second tranche of the non-brokered private placement financing previously announced on May 25th, 2024. The first tranche closing, plus this second tranche closing combined for gross proceeds of \$9,087,645.

The Company received an aggregate proceeds of C \$261,999.92 from the second tranche issuance of 935,714 LIFE units at \$0.28 per LIFE unit and C \$1,696,986.72 from the issuance of 6,285,136 units (the "**Units**") of the Company at C\$0.27 per Unit for a total of \$1,958,986.64. Each LIFE unit consisted of one common share and one-half of one common share purchase warrant (each whole, being a "**Warrant**") exercisable into a common share (each a "**Warrant Share**") for 2 years at \$0.34 per Warrant Share. The Units consisted of one common share and one Warrant. The Units bear a hold period of four months and one day from the date of issuance.

The LIFE portion of the offering was made pursuant to the listed issuer financing exemption under Part 5A of National Instrument 45-106 - *Prospectus Exemptions* (the "**LIFE Exemption**"). The securities sold under the LIFE Exemption are not subject to a hold period in accordance with applicable Canadian securities laws. A copy of the offering document under the LIFE Exemption dated April 30, 2024, is available electronically on SEDAR+ (www.sedarplus.ca) under the Company's issuer profile. The offering remains subject to final acceptance by the TSX Venture Exchange.

In connection with the offering, the Company paid an aggregate of \$46,363.92 in finder's fees and issued 169,638 finder's warrants (each, a "**Finder's Warrant**") to certain finders. Each Finder's Warrant entitles the holder thereof to purchase one common share of the Company at a price of \$0.34 per share for a period of 24 months from its date of issue. The Finder's Warrants bear a hold period of four months and one day from the date of issuance.

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and accordingly, may not be offered or sold within the United States except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities requirements or pursuant to exemptions therefrom. This press release does not constitute an offer to sell or a solicitation to buy any securities in any jurisdiction.

ABOUT IMPACT SILVER

IMPACT Silver Corp. (TSXV: IPT) is a successful producer-explorer with two mining projects in Mexico.

Royal Mines of Zacualpan Silver-Gold District: IMPACT owns 100% of the 211 km² Zacualpan project in central Mexico where four underground silver mines and one open pit mine feed the central 500 tpd Guadalupe processing plant. To the south, the Capire Project includes a 200 tpd processing pilot plant adjacent to an open pit silver mine with an NI43-101 inferred mineral resource of over 4.5 million oz silver, 48 million lbs zinc and 21 million lbs lead (see IMPACT news release dated January 18, 2016, for details and QP statement). Company engineers are reviewing Capire for a potential restart of operations to leverage improving commodity prices. Over the past 18 years, IMPACT has developed multiple exploration zones into commercial production and has produced over 12 million ounces of silver, generating revenue more than \$265 million, with no long-term debt.

Plomosas Zinc-Lead-Silver District: Plomosas is a high-grade zinc producer in northern Mexico with exceptional exploration upside potential. The Company recently began preliminary mining and processing operations where upgrades to facilities and equipment continue. Exploration potential at Plomosas is exceptional where only 600m of the 6 km-long structure have seen modern exploration. This is in addition to other exploration targets on the 3,019-hectare property including untested copper-gold targets with indications of high-grade material from surface. Regionally, Plomosas lies in the same mineral belt as some of the largest carbonate replacement deposits in the world.

Forward-Looking and Cautionary Statements

This IMPACT News Release may contain certain "forward-looking" statements and information relating to IMPACT that is based on the beliefs of IMPACT management, as well as assumptions made by and information currently available to IMPACT management. Forward-looking information is often, but not always, identified by the use of words such as "seek", "anticipate", "plan", "continue", "planned", "expect", "project", "predict", "potential", "targeting", "intends", "believe", "potential", and similar expressions, or describes a "goal", or variation of such words and phrases or state that certain actions, events or results "may", "should", "could", "would", "might" or "will" be taken, occur or be achieved. There is no assurance that (i) the Company will be able to complete the third tranche of the Offering on the terms set out above, or at all, or (ii) that the proceeds of the Offering will be expended as contemplated.

Such forward-looking information involves known and unknown risks and assumptions, including with respect to, without limitations, exploration and development risks, expenditure and financing requirements, title matters, community relations, criminal activity, operating hazards, metal prices, political and economic factors, competitive factors, general economic conditions, relationships with vendors and strategic partners, governmental regulation and supervision, seasonality, technological change, industry practices, and one-time events. Should any one or more risks or uncertainties materialize or change, or should any underlying assumptions prove incorrect, actual results and forward-looking statements may vary materially from those described herein. IMPACT does not assume the obligation to update any forward-looking statement.

The Company's decision to place a mine into production, expand a mine, make other production related decisions or otherwise carry out mining and processing operations, is largely based on internal non-public Company data and reports based on exploration, development and mining work by the

Company's geologists and engineers. The results of this work are evident in the discovery and building of multiple mines for the Company and in the track record of mineral production and financial returns of the Company since 2006. Under NI 43-101 the Company is required to disclose that it has not based its production decisions on NI 43-101 compliant mineral resource or reserve estimates, preliminary economic assessments or feasibility studies, and historically such projects have increased uncertainty and risk of failure.
