TSXV: Q

QUETZAL COPPER ANNOUNCES EXTENSION OF PRIVATE PLACEMENT

Vancouver, British Columbia (January 15, 2025) – Quetzal Copper Corp. (TSXV: Q) (“**Quetzal**” or the “**Company**”) announces that further to its news releases dated December 13, 2024 and December 27, 2024, the TSX Venture Exchange (“**TSXV**”) has granted the Company an extension to complete its previously announced non-flow-through portion of its non-brokered private placement of units of the Company (the “**Units**”), at a price of C\$0.15 per Unit (the “**Offering**”). The Company now has until February 17, 2025 to complete the Financing.

The Offering

- up to 6,666,666 Units at a price of C\$0.15 per Unit for gross proceeds of up to C\$1,000,000 from the sale of Units; and
- up to 11,764,705 flow through units of the Company (the “**FT Units**”) at a price of C\$0.17 per FT Unit for gross proceeds of up to C\$2,000,000 from the sale of FT Units. Each FT Share will be issued as a “flow-through share” within the meaning of the Income Tax Act (Canada).

Each Unit and FT Unit issued under the Offering shall consist of one common share in the capital of the Company (each, a “Common Share”) and one-half of one Common Share purchase warrant (each whole warrant, a “Warrant”). Each Warrant will entitle the holder thereof to acquire one Common Share at an exercise price of C\$0.25 per Common Share for a period of 24 months from the closing of the Offering (the “Closing”).

A cash commission and finder's warrants may be paid to arm's length finders on a portion of the Offering.

The Company closed the first tranche of the Offering consisting of 11,284,853 FT Units for gross proceeds of C\$1,918,425 on December 27, 2024. The Company paid cash finder's fees in the amount of C\$82,000 and issued an aggregate of 482,353 finder's warrants (the “**Finder's Warrants**”) in connection with the First Tranche. The Finder's Warrants are non-transferable and are exercisable at \$0.25 per share for 24 months from the issuance date.

The Company intends to use the net proceeds from the sale of Units for exploration and development activities and general corporate purposes. The gross proceeds from the sale of the FT Shares will be used by the Company to incur eligible “Canadian exploration expenses” that will qualify as “flow-through critical mineral mining expenditures” as such terms are defined in the Income Tax Act (Canada) (the “Qualifying Expenditures”) related to the Company's Princeton and Dot projects in British Columbia, Canada. All Qualifying Expenditures will be renounced in favour of the subscribers of the FT Shares effective December 31, 2024.

All securities to be issued pursuant to the Offering are subject to a statutory four (4) month and one (1) day hold period and regulatory approval.

About Quetzal Copper

Quetzal is engaged in the acquisition, exploration, and development of mineral properties in British Columbia and Mexico. Quetzal currently has a portfolio of three properties located in British Columbia, Canada and one in Mexico. The Company's principal project, Princeton Copper, is located adjacent to Hudbay's Copper Mountain mine in southern British Columbia.

FORWARD LOOKING STATEMENTS

The information contained herein contains "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the meaning of applicable Canadian securities legislation. "Forward-looking information" includes, but is not limited to, statements with respect to the activities, events, or developments that the Company expects or anticipates will or may occur in the future, including, without limitation, planned exploration activities. Generally, but not always, forward-looking information and statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or the negative connotation thereof or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof. Forward-looking statements in this news release include, among others, statements relating to exploration and development of the Company's properties.

Such forward-looking information and statements are based on numerous assumptions, including among others, that the results of planned exploration activities are as anticipated, the anticipated cost of planned exploration activities, that general business and economic conditions will not change in a material adverse manner, that financing will be available if and when needed and on reasonable terms, that third party contractors, equipment and supplies and governmental and other approvals required to conduct the Company's planned exploration activities will be available on reasonable terms and in a timely manner. Although the assumptions made by the Company in providing forward-looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate.

Forward-looking information and statements also involve known and unknown risks and uncertainties and other factors, which may cause actual events or results in future periods to differ materially from any projections of future events or results expressed or implied by such forward-looking information or statements, including, among others: negative operating cash flow and dependence on third party financing, uncertainty of additional financing, no known mineral reserves or resources, the limited operating history of the Company, aboriginal title and consultation issues, reliance on key management and other personnel, actual results of exploration activities being different than anticipated, changes in exploration programs based upon results, availability of third party contractors, availability of equipment and supplies, failure of equipment to operate as anticipated, accidents, effects of weather and other natural phenomena and other risks associated with the mineral exploration industry, environmental risks, changes in laws and regulations, community relations and delays in obtaining governmental or other approvals.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information. The Company undertakes no obligation to update or reissue forward-looking information as a result of new information or events except as required by applicable securities laws.
