

Guanajuato Silver Recognised for Social Responsibility in Mexico

VANCOUVER, BC / [ACCESS Newswire](#) / June 16, 2025 / Guanajuato Silver Company Ltd. (the "Company" or "GSilver") (TSXV:GSVR)(OTCQX:GSVRF) is pleased to announce it has received Mexico's Socially Responsible Enterprise certification, which recognizes the quality of the Company's community outreach and integration programs throughout 2024; and as previously announced on April 28, 2025, the Company confirms that the amended terms of its Gold Credit Facility with Ocean Partners UK Ltd. ("Ocean Partners") have been finalized.

Socially Responsible Enterprise (ESR Certification)

Guanajuato Silver's Mexican operating subsidiary, Minera Mexicana El Rosario, has been awarded the Socially Responsible Enterprise (Empresa Socialmente Responsable "ESR") Award for 2024. This certification was granted by the Mexican Center for Philanthropy and is based on excellence in the areas of environment, social responsibility, governance and global context.

New Gold Credit Facility

As previously announced, the Company has amended the terms of its Gold Credit Facility with Ocean Partners UK Ltd. ("**Ocean Partners**") ([See Guanajuato Silver news release April 28, 2025](#)). The new Gold Credit Facility (the "**New Facility**") (as of today's date) has an outstanding balance of 7182 ounces of gold bullion; under the terms of the New Facility, two-thirds of the outstanding balance will be amortized over 36 months starting April 2025, and is repayable in equal fixed monthly installments of 131.7 ounces of gold bullion, representing approximately 10% of Guanajuato Silver's modelled monthly gold production. In connection with the terms of the new Gold Credit Facility, the Company will issue to Ocean Partners 4,550,000 non-transferable warrants exercisable into one common share of the Company with an exercise price of C\$0.24. Each warrant has a 36-month term that expires on June 16, 2028. The warrants, and the common shares issuable upon exercise, are subject to a statutory hold period that ends on October 17, 2025.

James Anderson, Chairman & CEO said, "The reduction of our monthly loan payments by over 200 ounces of gold per month provides the Company with improved financial flexibility as we pursue opportunities to grow our business at a time of increasing interest in precious metals."

About Guanajuato Silver

GSilver is a precious metals producer engaged in reactivating past producing silver and gold mines in central Mexico. The Company produces silver and gold concentrates from the El Cubo Mine, Valenciana Mines Complex, and the San Ignacio mine; all three mines are located within the state of Guanajuato, which has an established 480-year mining history. Additionally, the Company produces silver, gold, lead, and zinc concentrates from the Topia mine in northwestern Durango. With four operating mines and three processing facilities, Guanajuato Silver is one of the fastest growing silver producers in Mexico.

ON BEHALF OF THE BOARD OF DIRECTORS

"James Anderson"
Chairman and CEO

Forward-Looking Statements

This news release contains certain forward-looking statements and information, which relate to future events or future performance including, but not limited to, GSilver's growth, improved financial flexibility, opportunities to grow the Company's business through potential acquisitions at a time of increasing interest in precious metals and GSilver's status as one of the fastest growing silver mining company in Mexico.

Such forward-looking statements and information reflect management's current beliefs and are based on information currently available to and assumptions made by the Company; which assumptions, while considered reasonable by the Company, are inherently subject to significant operational, business, economic and regulatory uncertainties and contingencies. These assumptions include: our estimates of the potential quantity, grade and metal content of the mineralized material at El Cubo and San Ignacio, the geotechnical and metallurgical characteristics of such material conforming to sampled results and metallurgical performance; available tonnage of mineralized material

to be mined and processed; resource grades and recoveries; assumptions and discount rates being appropriately applied to production estimates; prices for silver, gold and other metals remaining as estimated; currency exchange rates remaining as estimated; availability of funds for the Company's projects and to satisfy current liabilities and obligations including debt repayments; capital, decommissioning and reclamation estimates; prices for energy inputs, labour, materials, supplies and services (including transportation) and inflation rates remaining as estimated; no labour-related disruptions; no unplanned delays or interruptions in scheduled construction and production; all necessary permits, licenses and regulatory approvals are received in a timely manner; and the ability to comply with environmental, health and safety laws. The foregoing list of assumptions is not exhaustive.

Readers are cautioned that such forward-looking statements and information are neither promises nor guarantees, and are subject to risks and uncertainties that may cause future results, level of activity, production levels, performance or achievements of GSilver to differ materially from those expected including, but not limited to, market conditions, availability of financing, currency rate fluctuations, high inflation and interest rates, tariffs, geopolitical conflicts including wars, actual results of exploration, development and production activities, actual grades and recoveries of silver, gold and other metals from the Company's existing mines including El Cubo, San Ignacio, VMC and Topia, availability of third party mineralized material for processing, unanticipated geological or structural formations and characteristics, environmental risks, future prices of gold, silver and other metals, operating risks, accidents, labor issues, equipment or personnel delays, delays in obtaining governmental or regulatory approvals and permits, inadequate insurance, and other risks in the mining industry. There are no assurances that GSilver will be able to continue to increase production, tonnage milled and recoveries rates, improve grades and reduce costs at El Cubo, San Ignacio, VMC and/or Topia to process mineralized materials to produce silver, gold and other concentrates in the amounts, grades, recoveries, costs and timetable anticipated. In addition, GSilver's decision to process mineralized material from El Cubo, San Ignacio, VMC and Topia is not based on a feasibility study of mineral reserves demonstrating economic and technical viability and therefore is subject to increased uncertainty and risk of failure, both economically and technically. Mineral resources and mineralized material that are not Mineral Reserves do not have demonstrated economic viability, are considered too speculative geologically to have the economic considerations applied to them, and may be materially affected by environmental, permitting, legal, title, socio-political, marketing, and other relevant issues. There are no assurances that the Company's projected grades of gold and silver at El Cubo and San Ignacio and the anticipated level of production therefrom will be realized. In addition, there are no

assurances that the Company will meet its production forecasts or generate the anticipated cash flows from operations to satisfy its scheduled debt payments or other liabilities when due or meet financial covenants to which the Company is subject or to fund its exploration programs and corporate initiatives as planned. There is also uncertainty about impact of any future global pandemic, ongoing global military conflicts, elevated inflation and interest rates and the impact they will have on the Company's operations, supply chains, ability to access mining projects or procure equipment, contractors and other personnel on a timely basis or at all and economic activity in general. Accordingly, readers should not place undue reliance on forward-looking statements or information. All forward-looking statements and information made in this news release are qualified by these cautionary statements and those in our continuous disclosure filings available on SEDAR+ at www.sedarplus.ca including the Company's most recently filed annual information form. These forward-looking statements and information are made as of the date hereof and the Company does not assume any obligation to update or revise them to reflect new events or circumstances save as required by law.
