

## **Pacifica Silver Announces U.S. Listing on the OTCQB**

Vancouver, British Columbia, September 3, 2025 – **Pacifica Silver Corp.** (CSE: PSIL) (“Pacifica” or the “Company”) is pleased to announce that its common shares will commence trading in the United States on the OTCQB marketplace, operated by OTC Markets Group Inc., under the symbol “**PAGFF**”, effective September 4, 2025.

“Securing a listing on the OTCQB marks a significant step in increasing our visibility and accessibility to U.S. investors,” stated Todd Anthony, President and Chief Executive Officer of Pacifica. “We expect this move to greatly enhance Pacifica’s market liquidity, widen our shareholder base and strengthen our presence in the U.S. investment market.”

The OTCQB Venture Market provides a robust trading platform for early-stage and growth companies to boost their U.S. market presence. Companies on the OTCQB must meet stringent reporting standards, undergo annual verification, and adhere to management certification requirements, ensuring a reliable trading environment for investors. Real-time quotes and market information for Pacifica are available at [www.otcmarkets.com](http://www.otcmarkets.com).

The Company’s shares will also continue to trade on the Canadian Securities Exchange under the symbol “**PSIL**”.

### **About Pacifica Silver Corp.**

Pacifica Silver Corp. is a Canadian resource company led by a proven management team with decades of mining and exploration experience in Mexico. The company is focused on its 100% owned Claudia Project located in Durango, Mexico. Spanning 11,876 hectares, the Project encompasses most of the historic El Papantón Mining District where at least nine small mines operated throughout the 20th century. Since 1990, sampling and drilling within have returned high-grade silver and gold intercepts across multiple vein systems, with only 10% of over 30 kilometres of known veins having been drilled. Today, the project is a prime target for modern exploration and holds exceptional potential for new high-grade discoveries.

The Company also holds an option to acquire a 100% interest in the Janampalla Property located in the Huancavalica Province of Central Perú. Pacifica is focused on continuing exploration work that has indicated widespread, high-grade copper-gold mineralization hosted within Manto style veins and disseminations.

Signed,  
Todd Anthony  
President and Chief Executive Officer

#### **Forward Looking Information**

This news release contains certain “forward-looking information” and “forward-looking statements” within the meaning of Canadian securities legislation as may be amended from time to time, including, without limitation, statements regarding the perceived merit of the Project, potential quantity and/or grade of minerals and the potential size of the mineralized zone. Forward-looking statements are statements that are not historical facts which address events, results, outcomes or developments that the Company expects to occur. Forward-looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made, and they involve a number of risks and uncertainties. Certain material assumptions regarding such forward-looking statements were made, including without limitation, assumptions regarding the price of gold and silver; the accuracy of mineral resource estimations; that there will be no material adverse change affecting the Company or its properties; that all required approvals will be obtained, including concession renewals and permitting; that political and legal developments will be consistent with current expectations; that currency and exchange rates will be consistent with current levels; and that there will be no significant disruptions affecting the Company or its properties. Consequently, there can be no assurances that such statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements involve significant known and unknown risks and uncertainties, which could cause actual results to differ materially from those anticipated. These risks include, but are not limited to: risks related to uncertainties inherent in the preparation of mineral resource estimates, including but not limited to changes to the cost assumptions, variations in quantity of mineralized material, grade or recovery rates, changes to geotechnical or hydrogeological considerations, failure of plant, equipment or processes, changes to availability of power or the power rates, ability to maintain social license, changes to interest or tax rates, changes in project parameters, delays and costs inherent to consulting and accommodating rights of local communities, environmental risks, title risks, including concession renewal, commodity price and exchange rate fluctuations, risks relating to COVID-19, the ongoing war in the Ukraine, delays in or failure to receive access agreements or amended permits, risks inherent in the estimation of mineral resources; and risks associated with executing the Company’s objectives and strategies, including costs and expenses, as well as those risk factors discussed in the Company’s most recently filed management’s discussion and analysis, available on [www.sedar.com](http://www.sedar.com). Except as required by the securities disclosure laws and regulations applicable to the Company, the Company undertakes no obligation to update these forward-looking statements if management’s beliefs, estimates or opinions, or other factors, should change.
