

# GoGold Releases Record Financial Results for 2025

Halifax, Nova Scotia--(Newsfile Corp. - December 11, 2025) - **GoGold Resources Inc. (TSX: GGD) (OTCQX: GLGDF) ("GoGold", "the Company")** announces the financial results for the year ending September 30, 2025, with Parral revenue doubling, generating a record \$72.5 million (all amounts are in U.S. dollars) from the sale of 2.1 million silver equivalent ounces.

"Parral had a banner year for us, producing record revenues of \$73 million, driving cash flows from operations of \$26 million and net income of \$17 million. In 2025, we realized a silver selling price of \$33/oz, so with silver prices currently above \$55/oz the outlook for 2026 is very strong," said Brad Langille, President and CEO. "With our \$143 million CAD bought deal financing completed last month, we currently have over \$240 million USD in cash, and no debt. With our strong balance sheet, and our feasibility study estimating capital costs of \$227 million for the construction of Los Ricos South, we are substantially de-risked for the execution phase of the project in 2026. Another substantial advantage for our Company is the flexibility to aggressively advance Los Ricos North towards feasibility and permitting as we are constructing the South. We believe that this aggressive plan will realize maximum shareholder value from these historically strong commodity prices."

Highlights for the year ending September 30, 2025:

- Cash of \$141.1 million USD
- Revenue of \$72.5 million on the sale of 2.1 million silver equivalent ounces at an average realized price per ounce of \$33.80 USD
- Net income of \$17.3 million
- Production of 2,150,192 silver equivalent ounces, consisting of 851,102 silver ounces, 12,289 gold ounces, 476 copper tonnes, 609 zinc tonnes
- Adjusted cash cost per silver equivalent ounce of \$18.35
- Adjusted all in sustaining cost per silver equivalent ounce of \$23.72

Following are tables showing summarized financial information and key performance indicators:

Summarized Consolidated Financial Information	Three months ended Sep 30		Year ended Sep 30	
(in thousands USD, except per share amounts)	2025	2024	2025	2024
Revenue	\$ 18,095	\$ 10,406	\$ 72,503	\$ 36,503
Cost of sales, including depreciation	9,212	7,139	43,959	24,313
Operating income	5,204	4,021	17,089	5,622
Net income	5,893	719	17,331	1,580
Basic net income per share	0.018	0.002	0.048	0.005
Cash flow from (used in) operations	5,391	(1,371)	25,650	(11,263)

Key Performance Indicators <sup>1</sup>	Three months ended Sep 30		Year ended Sep 30	
(in thousands USD, except per ounce amounts)	2025	2024	2025	2024
Total tonnes stacked	416,560	363,695	1,612,142	1,587,360
Silver equivalent ounces sold	435,522	362,314	2,144,938	1,406,660
Adjusted AISC per silver equivalent ounce <sup>2</sup>	\$ 27.60	\$ 23.26	\$ 23.72	\$ 24.15
Adjusted Cash cost per silver equivalent ounce <sup>2</sup>	\$ 18.95	\$ 17.71	\$ 18.35	\$ 17.62
Realized silver price	\$ 41.55	\$ 28.64	\$ 33.80	\$ 25.95

<sup>1</sup>Key performance indicators are unaudited non-GAAP measures, see reconciliation in MD&A.

### **CAUTIONARY STATEMENT:**

The securities described herein have not been, and will not be, registered under the United States Securities Act of 1933, as amended (the "U.S. Securities Act"), or any state securities laws, and may not be offered or sold within the United States or to, or for the benefit of, U.S. persons (as defined in Regulation S under the U.S. Securities Act) except in compliance with the registration requirements of the U.S. Securities Act and applicable state securities laws or pursuant to exemptions therefrom. This release does not constitute an offer to sell or a solicitation of an offer to buy of any of GoGold's securities in the United States.

This news release may contain "forward-looking information" as defined in applicable Canadian securities legislation. All statements other than statements of historical fact, included in this release, including, without limitation, statements regarding the Parral tailings project, the Los Ricos project, future operating margins, future production and processing, and future plans and objectives of GoGold, constitute forward-looking information that involve various risks and uncertainties. Forward-looking information is based on a number of factors and assumptions which have been used to develop such information but which may prove to be incorrect, including, but not limited to, assumptions in connection with the continuance of GoGold and its subsidiaries as a going concern, general economic and market conditions, mineral prices, the accuracy of mineral resource estimates, and the performance of the Parral project. There can be no assurance that such information will prove to be accurate and actual results and future events could differ materially from those anticipated in such forward-looking information.

Important factors that could cause actual results to differ materially from GoGold's expectations include exploration and development risks associated with the GoGold's projects, the failure to establish estimated mineral resources or mineral reserves, volatility of commodity prices, variations of recovery rates, and global economic conditions. For additional information with respect to risk factors applicable to GoGold, reference should be made to GoGold's continuous disclosure materials filed from time to time with securities regulators, including, but not limited to, GoGold's Annual Information Form. The forward-looking information contained in this release is made as of the date of this release.

### **Cautionary non-GAAP Measures and Additional GAAP Measures**

Note that for purposes of this section, GAAP refers to IFRS. The Company believes that investors use certain non-GAAP and additional GAAP measures as indicators to assess mining companies. They are intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared with GAAP. Non-GAAP and additional GAAP measures do not have a standardized meaning prescribed under IFRS and therefore may not be comparable to similar measures presented by other companies.

Additional GAAP measures that are presented on the face of the Company's consolidated statements of comprehensive income include "Operating income (loss)". These measures are intended to provide an indication of the Company's mine and operating performance. Per ounce measures are calculated by dividing the relevant mining and processing costs and total costs by the tonnes of ore processed in the period. "Adjusted cash costs per ounce" and "Adjusted all-in sustaining costs per ounce" are used in this analysis and are non-GAAP terms typically used by mining companies to assess the level of gross margin available to the Company by subtracting these costs from the unit price realized during the period. These non-GAAP terms are also used to assess the ability of a mining company to generate cash flow from operations. There may be some variation in the method of computation of these metrics as determined by the Company compared with other mining companies. In this context, "Adjusted cash costs per ounce" reflects the cash operating costs allocated from in-process and dore inventory associated with ounces of silver and gold sold in the period. "Adjusted cash costs per ounce" may vary from one period to another due to operating efficiencies, grade of material processed and silver/gold recovery rates in the period. "Adjusted all-in sustaining costs per ounce" include total cash costs, exploration, corporate and administrative, share based compensation and sustaining capital costs. For a reconciliation of non-GAAP and GAAP measures, please refer to the Management Discussion and Analysis dated December 10, 2025 for the year ended September 30, 2025, as presented on SEDAR.
