Upgrading to the OTCQX Market is an important step for companies seeking to provide transparent trading for their U.S. investors. For companies listed on a qualified international exchange (Starcore is listed on the Toronto Stock Exchange), streamlined market standards enable them to utilize their home market reporting to make their information available in the U.S. To qualify for OTCQX, companies must meet high financial standards, follow best practice corporate governance and demonstrate compliance with applicable securities laws.

“We are pleased to qualify for trading on the OTCQX Market, which enhances our visibility and accessibility for U.S. investors. OTCQX provides a recognized platform for international companies that meet high financial and governance standards, and we believe this qualification will support greater communication with our U.S. shareholder base while broadening awareness of our company within the North American investment community,” said Robert Eadie, President and CEO of Starcore.”
