Canuc Announces DTC Eligibility for Company Shares

Toronto, Ontario - August 11th, 2026 - Canuc Resources Corporation ("Canuc" or the "Company") (TSX-V: CDA, OTCQB: CNUCF, WKN: A41V6H) is pleased to announce that its common shares are now **Depository Trust Company ("DTC") eligible** in the United States.

DTC eligibility simplifies the electronic clearing and settlement of Canuc's common shares through the Depository Trust Company, the largest securities depository in the United States. Electronic settlement reduces costs and accelerates the settlement process for investors and broker-dealers, making the Company's shares more accessible to the U.S. investment community.

DTC is a subsidiary of the Depository Trust & Clearing Corporation ("DTCC") and manages the electronic clearing and settlement of publicly traded securities in the United States. Securities that are DTC eligible may be traded through participating brokerage firms using electronic book-entry transfers, eliminating the need for physical share certificates.

The Company believes that obtaining DTC eligibility represents another important milestone in expanding its capital markets presence and increasing liquidity for shareholders. Combined with the Company's OTCQB Venture Market listing, DTC eligibility is expected to enhance visibility among U.S. institutional and retail investors while facilitating trading in Canuc's common shares.

"Achieving DTC eligibility is an important step in enhancing Canuc's exposure within U.S. capital markets," stated Christopher J. Berlet, CEO and Director of Canuc Resources Corporation.

"We are now rapidly advancing exploration for gold, copper and critical minerals at the company's East Sudbury Project, and believe that making shares more accessible to U.S. investors will broaden our shareholder base and improve trading liquidity."

About Canuc Resources Corporation

Canuc Resources Corporation is a junior resource company developing its 100% interest in the East Sudbury Project ("**ESP**") which spans 20,078 hectares and is centered approximately 20 kilometers northeast of the Prolific Sudbury Mining Camp and near to the extensive infrastructure of the adjacent Sudbury Mining District. **ESP** encompasses several centers of critical and precious metal mineralization interpreted to be related to a mineral system that can form IOCG and affiliated critical and precious mineral deposits. Included within the Project is the historical Scadding Gold Mine and associated **Scadding Gold Tailings Project**.

Canuc also holds a 100% interest in the San Javier Silver-Gold Project located in Sonora State, Mexico. The San Javier Silver-Gold Project spans 28 claims covering 1,052 hectares and evidences extensive silver, gold and copper mineralization interpreted to be related to a mineral system that can form silver-dominant IOCG and affiliated deposits.

Canuc generates cash flow from natural gas production at its MidTex Energy Project located in Central West Texas, USA where Canuc has an interest in producing natural gas wells and rights for further in field developments. The Company also receives a 4% Net Smelter Royalty from gold production at the **Scadding Gold Tailings Project** located on Mining Claim LEA 107735 within the **ESP** property group.

Forward Looking Information

This news release contains forward-looking information. All information, other than information of historical fact, constitute "forward-looking statements" and includes any information that addresses activities, events or developments that the Corporation believes, expects or anticipates will or may occur in the future including the Corporation's strategy, plans or future financial or operating performance.

When used in this news release, the words "estimate", "project", "anticipate", "expect", "intend", "believe", "hope", "may" and similar expressions, as well as "will", "shall" and other indications of future tense, are intended to identify forward-looking information. The forward-looking information is based on current expectations and applies only as of the date on which they were made. The factors that could cause actual results to differ materially from those indicated in such forward-looking information include, but are not limited to, the ability of the Corporation to fund the exploration expenditures required under the Agreement. Other factors such as uncertainties regarding government regulations could also affect the results. Other risks may be set out in the Corporation's annual financial statements, MD&A and other publicly filed documents.

The Corporation cautions that there can be no assurance that forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such information. Accordingly, investors should not place undue reliance on forward-looking information. Except as required by law, the Corporation does not assume any obligation to release publicly any revisions to forward-looking information contained in this press release to reflect events or circumstances after the date hereof.
